NOTE

It is recommended that you read, print, and retain the fees and program rules listed below for reference when discussing spay/neuter services with the participating veterinary facility.

Reminder to Pet Owners

Spay or neuter surgeries are performed **by Appointment Only**. When you call one of the facilities listed above, please let them know immediately that you were referred by the County of San Diego Department of Animal Services, **Spay/Neuter Program**.

Charges to Pet Owners

The veterinary facility may charge an amount equal to or less than the fees specified in the following chart for performing a spay or neuter surgery:

| | Maximum Standard Fees | Including Pain Mgmt. Meds. |
|----------------------|-----------------------|----------------------------|
| Cat Neuter | \$40.00 | \$50.00 |
| Cat Spay | \$50.00 | \$60.00 |
| Dog Spay | | |
| Up to 40 pounds | \$65.00 | \$85.00 |
| Over 40 to 80 pounds | \$85.00 | \$105.00 |
| Over 80 pounds | \$105.00 | \$125.00 |
| Dog Neuter | | |
| Up to 40 pounds | \$55.00 | \$75.00 |
| Over 40 to 80 pounds | \$75.00 | \$95.00 |
| Over 80 pounds | \$95.00 | \$115.00 |

The Maximum Standard Fees listed above also include the costs for postoperative care, including suture removal, medication, and hospitalization required as a result of the surgery (except for complications caused by a pre-existing medical condition or an owner’s negligence or lack of proper care and attention)—but in no case for longer than 14 days following the surgery.

When a dog is delivered for surgery, the veterinarian will weigh the animal to determine the correct charge for surgery.

The veterinarian may offer or recommend post surgical pain management medication (i.e., medication to manage pain for a period of at least 36 hours after the surgery). However, the veterinarian shall not require this medication. If the owner accepts such an offer or recommendation, the fee for such medication shall not exceed \$10.00 per cat or \$20.00 per dog.

The veterinarian may add the following fees to those listed in the chart above for the following health conditions:

| | |
|-------------------|-------------------|
| Cat in heat: | No additional fee |
| Dog in heat: | \$30.00 |
| Pregnant cat: | \$15.00 |
| Pregnant dog: | \$30.00 |
| Cryptorchid: | \$30.00 |
| Umbilical hernia: | \$15.00 |

The veterinarian may require the owner to furnish or purchase an e-collar to be worn by the animal during the post-surgery recovery period.

The veterinarian may offer or recommend pre-op blood work, a comprehensive physical examination, vaccinations, de-worming, bathing, flea control, or other veterinary services. However, the veterinarian shall not require any of these services in relation to the veterinarian-subsidized spay/neuter surgery performed. If the veterinarian recommends or offers any such services, the veterinarian shall also clearly explain to the pet owner that approval of such additional services and fees is at the discretion of the pet owner, and that such additional services are not required to meet minimum professional veterinary care standards.
